## OBJECTIVE

---

A forward-thinking Frontend Developer with 2+ years of proven experience delivering responsive, high-performance web applications using React, Redux, Zustand, Next.js, and modern UI libraries such as Chakra UI, Material UI, and Shadcn UI. Skilled in integrating RESTful APIs, implementing efficient state management, optimizing performance, and elevating user experiences. Committed to leveraging technical expertise to drive corporate objectives, develop innovative solutions, and collaborate in dynamic, intellectually stimulating environments that promote continuous learning and career growth.

## WORK EXPERIENCE

---

### Iobotech Technologies Limited

Lagos, Nigeria

Frontend Developer

January 2025 – Present

- Architected responsive frontend solutions for prepaid metering and e-wallet platforms, enabling seamless digital payments and real-time consumption monitoring
- Engineered intuitive dashboards for Property Management Billing Software with configurable settings and API-driven data flows, streamlining utility billing processes
- Developed real-time data visualization components for Advanced Metering Infrastructure (AMI), transforming complex energy metrics into actionable business insights
- Created user-centric interfaces for solar energy platforms, empowering customers to track generation metrics and optimize installation performance
- Built comprehensive superadmin dashboard with centralized user management and role-based access control across multiple platforms

### Cutstruct Technologies Limited

Lagos, Nigeria

Frontend Developer

August 2023 – November 2023

- Delivered responsive admin and customer dashboards using React and TypeScript, boosting user experience by 40%
- Implemented mobile-first design strategies and performance optimizations, reducing load times by 30%
- Collaborated cross-functionally with backend teams on RESTful API integration, improving data retrieval efficiency by 25%
- Authored comprehensive technical documentation, reducing developer onboarding time by 15%
- Conducted thorough cross-browser testing, decreasing compatibility issues by 20%

### Rapidlink Technologies

Nigeria

Frontend Developer

July 2022 - August 2023

- Engineered high-performance web interfaces using React and Next.js, achieving 20% faster page loads
- Incorporated user-centered design feedback to enhance interface usability, increasing user engagement by 10%
- Led frontend optimization initiatives that reduced overall page load times by 25%

- Partnered with UX design teams to improve layout consistency, contributing to 15% increase in task completion rates
- 

### DataFirst Technologies LTD

Lagos, Nigeria

Frontend Developer

April 2022 - July 2022

- Developed mobile-responsive web applications using modern frontend frameworks, improving user retention by 35%
- Executed comprehensive testing and debugging protocols, reducing support tickets by 20%
- Implemented SEO best practices and performance optimizations, generating 20% increase in organic traffic

## SKILLS

---

**Frontend Technologies:** React.js, Next.js, TypeScript, JavaScript (ES6+), TailwindCSS

**State Management:** Redux, Zustand, Context API

**UI Libraries & Styling:** Chakra UI, Material UI, Shadcn UI, Styled Components, Tailwind CSS

**Development Tools:** Git, GitHub, npm/yarn, Webpack, Vite

**Testing Frameworks:** Jest, Vitest, React Testing Library

**Backend Integration:** RESTful APIs, Firebase, Appwrite, Prisma ORM

**Optimization & SEO:** Performance optimization, SEO implementation, Web Vitals

**Design Principles:** Responsive design, Mobile-first approach, Accessibility (WCAG).
