Skills

- HTML
- CSS
- JavaScript
- Typescript
- SASS
- Reactjs
- Github
- Firebase
- Styled Component
- Redux
- Chakra-UI

WORK EXPERIENCE

Cutstruct Technologies Limited   Lagos, Nigeria
Frontend Developer Intern   August 2023 - November 2023

- Designed and built responsive admin and customer dashboards with React and Chakra UI, improving user experience which increased engagement by 40% and decreased complaints by 25%.
- Integrated APIs using Redux for smooth state management and API calls, enhancing security and streamlining data, registration, and login flows for a dynamic user experience.
- Created branded email templates, drove feature improvements through cross-functional collaboration, and gained agile development experience with sprints and standups.
- Implemented Client-side form validation and intergrated alerts to provide user friendly error handling and visual feedback on interaction, improving data quality and user experience.

Techninover   Lagos, Nigeria
Frontend Developer Intern   August 2023 – January 2024

- Continuously studied and improved abilities with various web technologies, design tools, and programming practices.
- Conducted rigorous monthly testing of user experience issues on mobile and web apps, resulting in a 25% decrease in user-reported bugs and a 15% increase in user satisfaction metrics.
- Orchestrated the creation of visually appealing branded email templates, resulting in a 40% increase in email engagement and a 25% rise in click-through rates
.

PROJECTS

Ecommerce Website - React js |Redux |FakeStore API
